Italian Wedding Photographers

Independent Pictures is a photographic studio specialized in wedding and event photography. Our team is made up of wedding photographers and graphic designers. We all believe in beauty and emotions that every single photo gives back. Our own style is based on photojournalism criteria, we have a documentary approach to wedding photography. We let you live and enjoy your very special day trying to be invisible and capturing the most important moments spontaneously. Sometimes we ask the newlyweds few minutes for staged photos, catching them surrounded by the beautiful Italian landscape, in order to have images that will last forever!
